#281

"CHRIST THE KING"
Sierra De Cristo Rey
El Paso, Texas

On top of the 4,576 foot crest of Sierra De Cristo Rey is a large white sandstone cross and figure of "Christ The King". This statue officially dedicated Oct. 29, 1939 when a host of more than 10,000 persons made the pilgrimage afoot up the long winding road to the summit. It is the realization of an idea in the mind of Father Costa, Priest of a little smelter parish on the outskirts of El Paso. The figure of the Christ is the work of Senor Urbici Soler who worked for many months on the wind-swept peak.
